

Record Series #: 3121-009
Name: City of Savannah, Engineering Department
Retrospective Maps Collection, Property Maps
Dates: 1853-1982, no date
Extent/Size: 1305 maps in 3 document cases and 29 oversize folders
(15.6+/- cubic feet)
Language: English

Scope and Content:

Record Series 3121-009, City of Savannah, Engineering Department, Retrospective Maps Collection, Property Maps (1853-1982, no date), forms part of a larger collection of over 3,000 maps generated by the Engineering Department over a 200 year time span. These maps document City of Savannah property holdings and transactions related to land subdivision and development, street openings and improvements, water and sewer lines, and property lines and right-of-ways (*also see* Record Series 3121-007 General Maps and Record Series 3121-008 East/West Maps). The Property Maps specifically document City properties, easements, and right-of-ways, and the majority date from the early to mid-20th century. The dates of the collection represent the information provided on the maps, as well as their date of creation. Therefore, when a copy of an earlier map is present, both the date of the original map and the date of the copy are provided. The earliest date of an original map in this collection is 1866.

The bulk of maps dating from the second half of the 20th century are still in active administration files in the Engineering Department.

System of Arrangement and Ordering:

The Retrospective Maps Collection, Property Maps are arranged numerically by assigned map reference number. A numerical inventory is maintained by the Library and Archives with the following information recorded for each map:

- Description (title when available, otherwise applied title/description derived from information provided on map)
- Date (includes: recorded date; no date if none available; original date with revision date following; or informational date with copy date following)
- Map Reference #
- Record Series #
- Box #
- Folder #
- Duplicates
- Notes (includes: archivists' notes regarding condition of maps; missing maps; or miscellaneous descriptive information)

In addition, alphabetical indexes (including keyword, date and map reference number to refer back to numerical inventory) are available in the following categories:

- Wards
- Neighborhoods/Areas (includes: neighborhoods; subdivisions; cities and towns other than Savannah; parks; property tracts; etc.)
- Streets/Waterways (includes: streets; lanes; canals; sewers; etc.)
- Owners/Occupants (includes: current and former property owners other than the City of Savannah; residential, commercial and public occupants; parks; etc.)

Conditions Governing Access:

None

Conditions Governing Reproduction and Use:

Please read carefully the statement on copyright below. **Permission to reproduce does not constitute permission to publish.** Researchers who plan publication are asked to discuss this with the archivist first for written permission. While most of the City of Savannah, Research Library and Municipal Archives collections are public records and in the public domain, not all are, and the Library and Archives may not be the owner of copyright for all its archival materials. Researchers are responsible for obtaining any necessary permission to publish from the holder of copyright. In the event that the Library and Archives becomes a source for publication, a copy of the publication is requested for the Library and Archives.

NOTICE: WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve a violation of copyright law.

Additional Finding Aids:

The following hard-copy inventories and indexes are available in the City of Savannah, Research Library and Municipal Archives:

- Numerical inventory by map reference number
- Alphabetical index by wards
- Alphabetical index by neighborhoods/areas
- Alphabetical index by streets/waterways
- Alphabetical index by owners/occupants

For more information on finding aids, please contact the Library and Archives at www.savannahga.gov or (912) 651-6412.

Record Series 3121-009, Engineering Department, Retrospective Maps Collection, Property Maps. City of Savannah, Research Library and Municipal Archives, Savannah, Georgia.

Processed by:

L. Bellardo, E. Ielmini, C. Kelley, November 1988
Revised by L. Spracher and M. Johnson, December 2006

Preservation Note:

The Retrospective Maps Collection was transferred to the City of Savannah, Research Library and Municipal Archives from the Engineering Department in August 1987. The original rehousing and inventorying project was completed by the Library and Archives in 1988, and maintained the original order of the maps in 29 map books with pages inserted in plastic sleeves. Each map book page contained anywhere from 1 to 7 maps. The maps were numbered according to book and page number (consequently, many maps had the same reference number since they appeared together on the same map book page).

Over the years, the plastic sleeves of the map books have been deteriorating causing damage to the individual maps including, bleeding ink, transference of information from map to plastic, and transference of a greasy residue from plastic to map. In an effort to preserve the maps and halt the damage caused by the plastic sleeves, this record series was rehoused in 2006. All maps were removed from the plastic sleeves and assigned a unique reference number (map book #, page # and alphabetical character). Those maps small enough were rehoused in legal-sized folders and document cases. Oversize maps were rehoused in oversize folders and flat-file map drawers. All maps were interleaved with Permalife, acid-free paper in an attempt to absorb remaining residue and protect the maps from each other.

In addition to addressing the unique preservation issues of the Property Maps, this rehousing project served several purposes: eliminated duplicate map reference numbers to facilitate retrieval, use and citation; made maps easier to handle; and facilitated the creation of a new Microsoft Access database inventory with additional keyword indexing functions to identify proper names not brought out in the original indexing system which allowed only one alphabetical term to be indexed per map. Descriptions of maps for the numerical inventory was taken directly from the original 1988 inventory and verified against the maps during the rehousing project. During rehousing, several maps were found to be missing and were so identified in the inventory, and several uncatalogued maps were discovered and added to the inventory.

Property Maps, Numerical Inventory

Description Brennan Ward, sketch showing proposed Brogden Lane between Skidaway Road and unnamed street west of Morgan St.

Date 1962

Map Ref. # 21-17A

Box # n/a

Folder # Oversize 24

Duplicates

Notes

Description Brennan Ward, sewer easements required by City of Savannah on Lots 74-91 and 132-149, Western McGowan Tract

Date 1962/1967 circa

Map Ref. # 21-17B

Box # n/a

Folder # Oversize 24

Duplicates

Notes

Description DeRenne Ave. and 61st St., proposed development plan, Montgomery St. to Waters Ave.

Date no date

Map Ref. # 22-01A

Box # n/a

Folder # Oversize 25

Duplicates

Notes

Description Mingledorff Ward, plat of Lot 6, block "E," Groveland Subdivision and 3 adjacent tracts, surveyed for B'nai B'rith Jacob

Date 1958

Map Ref. # 22-01B

Box # 3121-009-3

Folder # 73

Duplicates

Notes

3121-009, Engineering Department Retrospective Maps Collection
Property Maps, Numerical Inventory

Description Mingledorff Ward, plat showing division of certain blocks into lots in Oakdale Subdivision, surveyed for Hermitage, Inc.

Date 1955

Map Ref. # 22-02A

Box # n/a

Folder # Oversize 25

Duplicates

Notes

Description Mingledorff Ward, plat of proposed right-of-way through the lands of Lily V. Tarantino for the relocation of existing ditch south of Groveland Subdivision

Date 1957

Map Ref. # 22-02B

Box # n/a

Folder # Oversize 25

Duplicates

Notes

Description Mingledorff Ward, map of Oakdale Subdivision owned by Columbian Realty Co. [copy of original by Carson Construction Co., 1923]

Date 1923, no date

Map Ref. # 22-03A

Box # n/a

Folder # Oversize 25

Duplicates

Notes

Description Mingledorff Ward, plat of Hodges and Mikell property being a portion of the Carlyle Tract on White Bluff Road

Date 1949

Map Ref. # 22-03B

Box # n/a

Folder # Oversize 25

Duplicates

Notes

3121-009, Engineering Department Retrospective Maps Collection
Property Maps, Numerical Inventory

Description Mingledorff Ward, drainage plan of Habersham Woods Subdivision

Date 1962

Map Ref. # 22-04A

Box # n/a

Folder # Oversize 25

Duplicates

Notes

Description Mingledorff Ward, map of additional easements for a sanitary sewer known as "outfall south of DeRenne" in Kensington Park and Groveland subdivisions

Date 1952

Map Ref. # 22-05A

Box # n/a

Folder # Oversize 25
